

Rotary Community Corps

is sponsored by

Rotary Club of Fareham Meon,

part of Rotary International

www.farehammeon.rotaryweb.org

Rotary Community Corps (RCC) is working in partnership with the charity **Hearing Link**, the UK organisation for people with hearing loss and their families. Hearing Link makes it easy to find information, services and support, to connect with others to share experiences and advice.

Let's Loop Fareham

is a project sponsored by

Hearing Link

www.hearinglink.org

Partners in the Let's Loop Fareham steering group:
Fareham Borough Council, Queen Alexandra Hospital Audiology Department,
Leightons Opticians and Hearing Care Fareham, Shopmobility Fareham, Tesco's
Fareham, Zurich Community Trust.

Volunteers wanted to

**Let's Loop
Fareham**

Who are we looking for?

Rotary Community Corps (RCC) are looking for hearing aid wearers who want to make a difference to their community with a very small commitment. We are asking for you to act literally as our eyes and ears to check on the availability of hearing loops in Fareham and to check whether they are working. We want you to also check the signage and how aware staff are of the loop.

Training will be given and the actual loop checking is very simple. You will work in pairs auditing shops, churches, libraries, the train station, doctors surgeries, theatres - in fact anywhere there should be a hearing loop.

The sort of person we are looking for is a hearing aid wearer who could spare a morning a month to help improve the quality of hearing loops in Fareham.

Let's Loop Fareham Volunteers

Rotary, working in partnership with the charity Hearing Link, are developing a team of volunteers who are hearing aid wearers and want to make a difference in their community. By getting involved with **Rotary Community Corps (RCC)** in Fareham you can use your skills, talents and experience to do good and change lives in the **Let's Loop Fareham** project.

We are looking for volunteers as part of the RCC to work with others to promote the use of hearing loops in our local communities and create greater awareness of these loops, particularly in shops and public buildings.

For many years Rotary International have supported such community groups around the world and now wish to extend this network to Great Britain. The RCC allows provision for risk assessments and insurance.

Aims of the RCC Community Act

To encourage individuals to take responsibility for the improvement of their neighbourhood or community.

To facilitate self-help activities and collective work to improve the quality of life.

To encourage the development of human potential to its fullest, within the context of the local culture and community.

Some of the benefits

Involvement in raising the community's awareness of hearing loops and campaigning for more loops where they are needed.

Opportunity to meet new people and learn new skills whilst having fun.

Satisfaction in knowing you have helped the community to develop and become more sustainable.

Opportunities for occasional social gatherings and sharing experiences.
